

# Tom Golding

0417 503 531 | tomgolding2012@outlook.com |  [LinkedIn](#) |  [GitHub](#)

## Skills

---

- Javascript | Typescript | Java | ReactJS | NodeJS | HTML | CSS | MySQL | firebase | Git | GitHub | npm | CI/CD | Material UI | Design patterns | OOP | Figma

## Education

---

University of Technology Sydney  
Bachelor of Computing Science (Honours),  
Major in Enterprise Systems Development

March 2021 - June 2024  
GPA: 6.07 | WAM: 79.50

**Related course work**      Applications programming, Theory of Computer Science, Web Systems, Fundamentals of Interaction Design, Network Fundamentals, Data Structures, and Algorithms

## Relevant Experience and Projects

---

**Timetable app** (unfinished)      December 2022 - Present

- Tools used: ReactJS, JSX, CSS, Git, npm
- App designed to allow a student to keep track of their upcoming assignments and marks for each assignment, as well as calculate their mark for an individual subject. Allows students to plan out their semester with ease of use. The project code can be found on GitHub [here](#), and a live demo of the current version is [here](#).

**Lexical and Syntactic Analyser**      September 2022 - October 2022

- Tools used: Java, Git
- Both assignments were done in conjunction with Theory of Computer Science for uni, the first was to construct a lexical analyzer that outputs a sequence of tokens based on its inputs, and the second was to build a parser that checks syntactic correctness of the Java language and output a parse tree. The project code can be found on GitHub here, [lexical](#) and [syntactic](#).

## Frontend Demo pages

July 2022 - Present

- Tools used: Javascript, React, HTML, CSS, npm, Git
- Used resources such as Frontendpractice.com to work on my skills through the list of websites they list, a list of these can be found on GitHub [here](#). The most recent live demo can be seen [here](#).

## Facebook Clone

December 2022 - December 2022

- Tools used: ReactJS, Material UI, JSX, CSS, Git
- Clone was made to practice React and other web technologies. The GitHub code can be seen [here](#), as well as the live demo [here](#)

## Work experience

---

### Aldi - Retail Assistant

April 2019 - Present

Roles include: Serving and assisting customers in a professional and efficient manner, operating registers and calculating change manually, ensuring shelves are fully stocked with products, training to use equipment to move stock safely, merchandising stock storewide, cleaning and maintaining store standards

## A little bit about me

---

I like to think of myself as a passionate and driven individual, I enjoy challenges as they allow me to explore and learn new things. From what you've read I have a strong passion for web development, but I do enjoy hobbies on my downside such as; developing my guitar skills and relaxing to some smooth blues music.
